| EduCode Academy | Computer Science - Coding | Grades 5-8, Grades 9-12 | educode.org | EduCode™ makes coding and computer science education accessible for kids of all learning styles and backgrounds, on a large scale, without the need for guidance from a teacher. Self-directed courses empower kids to learn coding independently. EduCode's key difference resides in our video micro-lessons, which break down complex computer science concepts into fun and engaging exercises. Rich storylines provide context and motivation throughout the learning journey. | On our website you will find we have a free trial account option which will allow users access to the beginning of all of our courses to give them a good feel for what the course can offer them. There is at least 30 minutes of work for each course available for free this way which can keep students very busy during any lost school days and for a nominal monthly fee they can upgrade to gain access to the full courses we offer if they and their parents want. |
